

Want to Know How to Communicate Effectively?

Do you know you can kill your career prospects by the way you communicate?

How you speak can make or break your professional image and career. Your communication style affects how your colleagues view your work, your performance and your character. However, effective communication skills do not come naturally to most people.

This workshop will teach you perception and how your colleagues perceive you. You will learn how to use appropriate words and tone to get your message across tactfully and diplomatically.

Attend the workshop and learn about communication styles, what makes communication effective, how to develop your communication skills, and how to communicate tactfully to get your message across.

“I suppose leadership at one time meant muscles; but today it means getting along with people.” *Mahatma Gandhi*

How you will benefit

By the end of the workshop, you will be able to:

- Understand perception and how others perceive you for your communication skills
- Flex your communication style for different audiences and situations
- Apply tact and diplomacy when you communicate with your colleagues
- Improve your image and become a more effective and passionate manager

What you will learn

What you will learn in this workshop:

- Perception, its importance and how others perceive you
- Explore different communication styles and find out what works for you
- The 5 actions that will make your communication more credible
- How to flex your communication style for different audiences and situations
- Communication blocks and how to remove them
- Effective listening skills and how to apply them when communicating with others
- Develop strategies for clear, tactful and diplomatic communication

Who should attend

Managers, executives, supervisors and personal assistants who want to communicate in a positive, professional and tactful way.
